"We always want the city to shine and routine maintenance is a part of that effort. It's through partnerships such as this one that not only create a more beautiful place to live, it instills a sense of community pride in our citizens. During today's event, these students not only pulled weeds and helped with cleanup efforts, they also had an opportunity to learn about what's actually planted here and how the native perennials we've planted are helping the environment.
